

PL-3301: Ethoxylated Trimethylolpropane Triacrylate

Product Name: Ethoxylated Trimethylolpropane Triacrylate

CAS#: 28961-43-5

PL-3301 Ethoxylated Trimethylolpropane Triacrylate is a trifunctional monomer that provides hardness and cure speed with low irritation.

Typical Applications: Coatings, Inks

Performance Properties:

- Fast curing
- Hardness

TYPICAL PROPERTIES

Viscosity @ 25C, cps	25 - 100
Color, APHA	100 max
Inhibitor	MeHQ – 250 – 350 ppm
Functionality	3
